PREFACE.

THE design of the following Work is to furnish young persons with an easy Guide to Spelling, and to combine utility with cheapness. In treating the subject, the Author has not only been attentive to the usual classification of words according to Alphabetical order and their number of syllables; but he has likewise taken care to arrange the words in separate divisions, according to their respective modes of accentuation, which he considers as an additional and very material improvement; as the uncertainty of placing the accent, which appears to be the most general difficulty to the young scholar in pronouncing his language, is successfully obviated by this method of arrangement.

As an additional help to ascertain the proper pronunciation of particular words, the equivocal sounds of the letters *c*, *s*, and *g*, are carefully distinguished in an easy and compendious method. Thus the learner will observe that the letter *ç*, with this mark annexed to it, always bears a soft sound like the letter *s*, as in cell, (*sell*); and if marked thus, *°c*, it is sounded like *ts*, as in *°chaff*, (*tshaff*): *°s* denotes the sound of *z*, as in wi[°]se (*wise*): *°g* represents the sound of *j*, as in *°gem* (*jem*); and *°g* has a similar sounds

When such marks are not affixed to these letters, they must be understood to retain their natural and more general sound, as in the words *call*, *house*, *get*. It must be observed likewise, that in words where *h* is printed in the Italic character, it is not aspirated; and wherever any other letter occurs in that character, its sound is dropped. A circumflex (^) over a vowel denotes a *long* sound, as in *bôlt*.* Where difficulties of irregularities arise, which cannot be thus easily obviated, the scholar is referred to the bottom of the page for a correct pronunciation. The plan itself is doubtless extremely simple. But when the circumstances of those for whom it is professedly designed are considered, this simplicity itself will probably be esteemed a recommendation.

The Author regards the rapid circulation of the preceding editions of this little work as bearing testimony of an extensive approbation among the educators of youth; and he flatters himself that this approbation is founded on a general experience of its utility for the purposes which it professes to serve.

The authorities here principally followed, with regard to orthography, accentuation, and the occasional documents of pronunciation, are the Dictionaries of Johnson, Walker, Sheridan, and Bailey. As to the explanatory matter, that of Bailey, with some exceptions, has been selected; but where a concise or satisfactory exposition of a word could not be obtained, the Author has introduced one of his own.

To the spelling lessons he has added a few particulars necessary for the learner to be acquainted with; such as,

* For the explanation of single accent (') and double accent (') the learner is referred to page 119.

a Table of Grammatical Terms, with their Marks and Explanations; another Table of the Contractions or Abbreviations commonly used in print or in writing.

He has likewise subjoined a catalogue of words apparently synonymous; but which are distinguished on a closer view, sometimes by minute, and sometimes by very striking shades of difference. It is not pretended that the distinct significations of these apparent synonymies are ascertained in every instance with etymological propriety or critical exactness. They are frequently exhibited merely according to their popular acceptance, and in a manner which, it is hoped, is accommodated to the ideas and capacities of those persons for whose use the book is particularly intended.

And to render it more unexceptionable to the youth of both sexes, the greatest care has been taken to omit words of an impure and immoral tendency; as the minds of youth cannot be too circumspectly guarded against the admission of improper ideas.

On the whole, therefore, it has been his ardent endeavour to render the *Scholar's Spelling Assistant* as extensively useful as the prescribed limits of the undertaking would permit; and no less acceptable to teachers, than to those for whom it is peculiarly appropriated.

a Table of Grammatical Terms with their Arabic and English
translations, another Table of the Contractions or Abbreviations
usually employed in writing.

The book likewise contains a catalogue of words requiring
special attention; and which are distinguished by a
certain mark, denoting the manner and manner in which they
are used. It is not pretended that this
catalogue is complete. It is only a list of the most important
words in every instance with etymological remarks on
their origin. They are frequently explained by
reference to their proper application, and in a manner
which is not only useful to the student, but also
to those persons for whom the book is particularly
intended.

And to assist the student in the study of
the Arabic language, the present work has been so far as possible
of an instructive nature, and as the number of words
which are too numerous to be included in the present
work.

On the whole, it is believed that this book will be
found to be a useful and interesting work, and as a
means of the student's knowledge of the Arabic language
will be found to be a valuable addition to the student's
knowledge, and as a means of the student's knowledge
of the Arabic language.
